USSF Fall Classic 2017 Results

Written and Compiled by Tom Campitelli

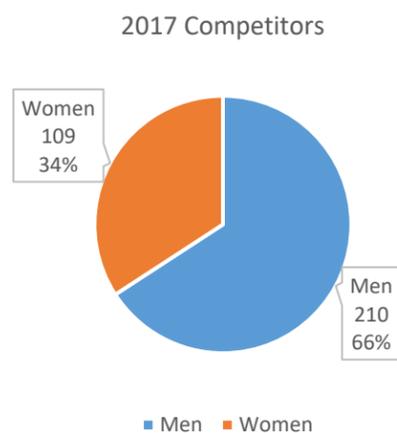

The US Strengthlifting Federation Fall Classic took place on October 28 and 29 of 2017. Starting Strength Coaches from around the country banded together to hold strength meets in the following locales:

- Atlanta, GA – Alex Kennedy (GA-A)
- Chicago, IL – David Abdemoulaie (IL-C)
- Puyallup, WA – Andrew Jackson, Anna Marie Oakes-Joudy (WA-P)
- New Windsor, NY – Kelli Nielson (NY-W)
- Oakland, CA – Tom Campitelli (CA-O)
- Omaha, NE – Phil Meggers (NE-O)
- Phoenix, AZ – Robert Santana (AZ-P)
- Singapore, SG – Shaun Pang (SG-S)
- Westminster, MD – Beau Bryant (MD-W)
- Wichita Falls, TX – Nick Delgadillo (TX-W)

Note that the abbreviations after each location above are used extensively in the tables that follow. The meets were conducted in accordance with the [rules of competition](#)

written by Mark Rippetoe. As is our custom, lifters weighed out after their last deadlift attempt. This made it more difficult to cut weight for the meet, which, in turn, made us very happy. We enjoy the meets more when the 60 kg class truly contains lifters that weigh 60 kg or less.

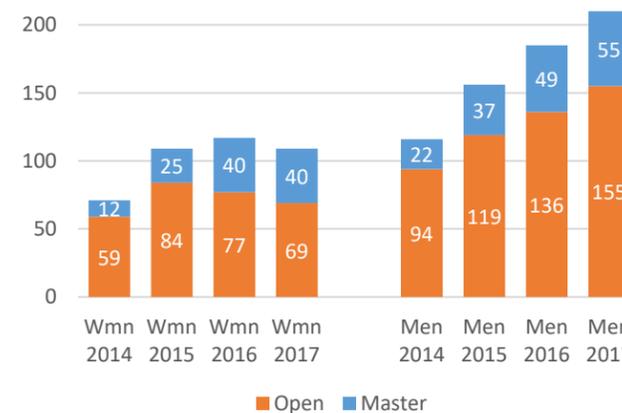

Attendance

A total of 319 lifters – 109 women and 210 men competed in the 2017 Fall Classic. Previous strength meets had an approximately 40/60 split between men

and women. This meet was almost exactly a two-thirds/one-third split in favor of men.

Combined Meet Demographics

Of the 319 competitors, 95 were masters lifters (40 years and over).

The USSF sanctioned its first meet in Singapore. Attentive readers might note that Singapore is not a part of the United States, therefore the “US” portion of “USSF” might not be sufficiently descriptive. The author will continue to ignore this observation, as he does many other things for which easy answers are not readily available.

Scoring

The results from the meets were combined and a best male and female lifter was calculated by multiplying the lifter’s total by their Wilks coefficient. The coefficient is based on the lifter’s body weight and offers the possibility of comparing lifters in different weight classes. All lifters, regardless of their age, were included in the Open division and were eligible for the best lifter award. Masters winners were calculated by multiplying their Wilks score by the appropriate McCulloch coefficient, which varies based on the age of the lifter. McCulloch coefficients were not applied to any lifters below the age of 40, nor were McCulloch coefficients applied to masters lifters when competing in the open division. Weight class winners were determined by total and did not have any coefficients applied to them.

Results

The winners for best lifter category received free entry to the upcoming US Strengthlifting Federation’s National Championship, to be held in 14 January 2018 in Oakland,

CA. In order to qualify for Nationals, lifters must have totaled in a USSF meet in 2017.

The winners of the combined meet were Stephanie Helland for the women and Jordan Feigenbaum for the men. Stephanie competed in the Phoenix, AZ meet and Jordan in the Oakland, CA. Don’t tell anyone, but the Phoenix, AZ actually took place in Tempe. The author didn’t realize that until fairly late in the game and is now choosing to ignore that fact. The best masters lifters were Linda Kephart in Westminster, MD and Steve Hendrix in Phoenix for the women and men respectively. Congratulations to the winners and all those who competed.

Jordan Feigenbaum pulled 319 kg for his final deadlift, which slightly exceeded the heaviest deadlift we have seen at a strength meet so far. Feigenbaum’s Wilks score just edged out Michael Cordova’s score in Wichita Falls, TX. Cordova posted the highest squat and total of any man in the competition, just as he did in the spring. Chase Lindley pressed an impressive 140 kg and called for 150 kg for his third attempt, but did not make it.

The women’s competition was very close, with just 10 Wilks points separating the top three lifters. Both Rebecca Witmer and Charity Hambrick pressed over 60 kg. Stephanie Helland, the overall winner, was right behind them with a 59 kg press at 67.4 kg in body weight. Especially impressive was Linda Kephart who won not only the Masters best lifter, but also won the Open 60 kg division, all at a youthful 64 years of age.

All the weights in the tables are listed in kilos. This was done because almost everyone reading this in the US prefers kilos to pounds. This is a fact. A spreadsheet with all the data is located on [Microsoft’s One Drive](#). Enjoy.
